---

## PROFILE SUMMARY

Fresher with hands-on experience in Java, C++, HTML/CSS/JavaScript, and building web projects with AI integration. Passionate about developing smart web solutions and eager to contribute fresh ideas to a software development team.

---

## EDUCATION

### Bachelor of Computer Applications (BCA)

2024 – Present

VHNSN College, Virudhunagar | CGPA: 7.64 (up to 3rd Semester)

---

## TECHNICAL SKILLS

**Languages:** Java, C++, JavaScript   **Web:** HTML5, CSS3, JavaScript   **Frameworks:** React JS, Spring Boot (training)

---

## PROJECTS

### Hospital Management Web Application

Apr 2026

Tech: HTML, CSS, JavaScript | [hospitalmanagement2006.netlify.app](https://hospitalmanagement2006.netlify.app)

- Built a multi-page, role-based web application with separate portals for Patient, Doctor, and Admin with secure login authentication.
- Designed a Patient Dashboard displaying medicines, dosage timings, attending staff, treatment history timeline, and appointment schedule.
- Developed a Doctor Portal with patient list, daily appointment schedule, and treatment records table with date and time tracking.
- Created an Admin Panel with patient-to-doctor assignment form, duty scheduling, and WhatsApp notification integration via wa.me.
- Ensured responsive design across all pages using CSS Grid and Flexbox for mobile and desktop compatibility.

### Billing System

Apr 2025

Tech: C++ | UG Mini Project

- Developed a console-based Billing System in C++ covering stock management, product purchasing, and automated bill generation.
- Implemented an Add Stock Module allowing administrators to add products with name, quantity, and unit price using arrays and structures.
- Designed automatic bill generation that calculates item subtotals, and prints a formatted invoice with grand total.
- Managed inventory tracking with real-time stock deduction and low-stock alerts after each successful purchase.
- Demonstrated OOP concepts including encapsulation and data abstraction through a menu-driven, modular code structure.
